

Share the fun, not the germs!

Insist on Whiteley Infection Control Products for your Childcare needs

Whiteley Corporation is committed to assisting childcare providers and healthcare professionals in preventing the spread of childhood illness through education and support materials.

Education assists anyone working with children. Germs can harbour on hands and objects, including toys, benches & door handles. Only frequent cleaning of hands, equipment and surfaces will prevent the transmission of potentially harmful bacteria and viruses that cause illness.

Hand Hygiene should be observed frequently, including:

- on arrival at childcare centres and schools to prevent the introduction of 'new' germs.
- before and after meals and activities including play, toileting or nappy change.

Hand hygiene using an alcohol based hand rub such as Bactol is ideal for active staff who need hand hygiene on-the-move.

It is important childcare workers demonstrate to children good hand hygiene technique using hand cleansers. We provide a complete range of posters and information sheets that demonstrate good hand hygiene in our [education section](http://www.whiteley.com.au/education) www.whiteley.com.au/education

Whiteley Corporation is committed to assisting your infection prevention and hygiene goals, as a result we are able to customise materials to meet your specific requirements. We maintain an extensive range of support materials and reference documents. Contact handhygiene@whiteley.com.au for further information.

Whiteley Corporation also specialise in products for surface cleaning and disinfection. The Clean Scent range is ideal for cleaning equipment and surfaces. V-Wipes are great for disinfecting surface areas in nappy change and toilet areas. Speedy clean wipes are ready to use wipes ideal for post-meal clean ups.

Physical cleaning of surfaces, toys and utensils in the childcare environment using neutral detergents will remove organic soil from contaminated surfaces.

SPEEDY CLEAN

Hospital Grade Neutral Detergent

- Fast drying leaving surfaces streak free.
- Developed using novel polymer technology to leave surfaces resistant to resoiling after use.
- Suitable for pre-cleaning soiled surfaces before disinfection.
- Registered as a Class I Medical Device ARTG No: 125529.

SPEEDY CLEAN WIPES

Hospital Grade Neutral Detergent Wipes

- Fast drying leaving surfaces streak free.
- Developed using novel polymer technology to leave surfaces resistant to resoiling after use.
- Suitable for pre-cleaning soiled surfaces before disinfection.
- Registered as a Class I Medical Device ARTG No: 125529.

Disinfection of potentially infectious surfaces in the childcare environment is critical for maintaining Infection Control.

VIRACLEAN

Hospital Grade Disinfectant

- Proven to kill a broad range of Bacteria and Viruses including common virus outbreaks in childcare facilities, MRSA, VRE & the Influenza Virus.
- Simplifies complex cleaning and disinfecting procedures.
- Suitable for use in cleaning change tables, cots and hard surfaces.
- Does not contain phenolics, chlorine or glutaraldehyde.
- Will not cause staining on fabrics or carpet.
- pH neutral.
- AUST R: 69000.

V-WIPES

Hospital Grade Disinfectant Wipes

- pH neutral – safe for use on most surfaces and equipment.
- Highly absorbent apertured fabric.
- Leaves surfaces streak free.
- Extremely durable.
- Non hazardous.
- Does not contain phenolics, chlorine or glutaraldehyde.
- Non Flammable.
- Friendly to use on metals (non corrosive).
- AUST L: 160 901.

Eliminate odours from soiled nappies and other items contaminated with body substances in childcare laundry, bathrooms and bins.

FLOROGEN

Concentrated Air Freshener

- Alcohol based air fresheners.
- Kills 99.9% of bacteria and improves hygiene in bathrooms, change rooms and laundry areas.
- Deodorises for 24hours or longer in some areas.
- Available in 3 fragrances – Frangipani, Lavender and Original.

ODACON

Incontinent Spray

- Highly efficient deodoriser for incontinence and human excrement.
- Greatly reduces offensive odours.
- Eliminates a common cause of urine smell by neutralising urine and faecal odours in nappies and other items contaminated with body substances.
- Non-flammable, water based and non-irritant to skin.

Hand washing for children, staff and visitors to the centre on arrival, before handling food, after using the toilet and changing children's nappies reduces transmission of infection.

BACTOL ALCOHOL GEL

Antibacterial Hand Rub

- Alcohol based hand cleanser for use without water.
- Contains Macadamia Oil to replenish the skins natural lipids which are removed by alcohol leaving your hands hygienic, soft and replenished.
- Maintains skins integrity.
- Available in a convenient 85ml pack size.
- AUST R: 155397.

DERMALUX EVERYDAY

Hand and Body Wash

- Specifically designed for people who wash their hands frequently.
- Leaves hands feeling soft and supple, with the delicate fragrance of peaches.
- Contains an ultra mild soap with added moisturisers that help to prevent your skin from drying out.

SANITOL

Waterless Hand Rub

- Kills 99.99% of bacteria and germs.
- Contains natural emollients to replenish the skin's lipids – leaves hands feeling soft, smooth and revitalised.
- Convenient pack sizes available – be germ free where ever you are.
- Natural skin conditioners & light pleasant fragrance - Ideal for all ages to use.
- A refreshing gel that kills 99.99% of germs without the need for water.

EarthSmart Cleaning Solution
